

Andreas Weller Named Tecomet President & Chief Executive Officer

WOBURN, MASS - January 4, 2023 – Tecomet, a leading contract manufacturer of orthopedic implants, instruments and sterilization trays, announced the appointment of Andreas Weller as its new President and Chief Executive Officer effective January 3, 2023. Mr. Weller succeeds Bill Dow, former Tecomet CEO and current Chairman of the Tecomet Board, who has served as the interim CEO since June 2022.

In addition to orthopedic products, Tecomet develops proven, full-spectrum scalable manufacturing solutions for leading medical device technology, aerospace and defense companies. Its core capabilities include forging, casting, precision machining, photochemical etching, welding, and finishing. Tecomet is a portfolio company of Charlesbank Capital Partners.

“The Search Committee conducted a thorough exploration, reviewing numerous profiles and interviewing many qualified candidates. Andreas is the best of a select group. He has extensive experience successfully running manufacturing companies around the world. We are very pleased to welcome Andreas as the new leader of the Tecomet team,” said Mr. Dow.

Mr. Weller has over 25 years of diverse, progressive
